The Mud Men

Man, n. An animal so lost in rapturous contemplation of what he thinks he is as to overlook what he indubitably ought to be. His chief occupation is extermination of other animals and his own species, which, however, multiplies with such insistent rapidity as to infect the whole habitable earth and Canada.

-Ambrose Bierce

International wildlife veterinarian, Jennifer Conrad, DVM, uses art to express the joy of animals. This card has purpose. It provides funds for the veterinary needs of animals around the world, and it provides a striking, environmentally friendly, art card for the humans who care.
Everybody wins.

The Paw Project will receive a portion of the proceeds from the sale of this card to finance reconstructive surgery for tigers and lions whose feet have been crippled by the cruel practice of declawing.
